

An all-in-one solution to **competency management** and compliance for organisations of all sizes

[BOOK A DEMO](#)

[DISCOVER MORE](#)

Skills ID is a competency management system (CMS) that helps you manage your staff skill set, training and authority to work.

- ✓ Identify and access your workforce competency, both technical and non-technical factors.
- ✓ Identify skills gaps and support workforce planning and talent development programmes.
- ✓ Assurance that your workforce is compliant and possesses the knowledge, skills and authorisation needed to act.

- Transform raw data into **customisable dashboards**
- Suitable for **all business sizes and sectors**
- Track the **authority to work and compliance** of all your staff
- Secure platform with **Multi-Factor Authentication (MFA)**, **login audit** and **single sign-on**
- **Medical and Access to Work (ATW) alerts**
- **Centralised file repository**
- Track **social value investment** in staff training
- Provides **GAP analysis**
- **Integrate with existing infrastructure**

Access your staff competencies on the move with the **Skills ID app**

- 24/7 access to your workforce records
- Displays clear data on staff competencies
- Available on IOS and Android
- Uses your organisation's branding and identity
- Built-in QR scanner providing instant access to an individuals profile
